INTRODUCTION

CYPRUS: TAX BENEFITS

- Our long lasting experience enables us to fully understand the needs of your business and contribute towards its success.
 - In this publication, we will concentrate on the business development between Cyprus and the Czech Republic in the context of the new Double Tax Treaty signed in April 2009 and enforced from January 2010.
 - Furthermore, we will endeavour to understand the benefits offered by Cyprus to the Czech business world and the international cross border business, as well as the purpose served by the Cypriot companies as holding, financing and licensing investment companies.
 - We will close our publication, with the suggested application and the use of the international collective investment schemes set up in Cyprus as well as the benefits obtained by an International Cyprus Trust.
-
- Cyprus provides for numerous tax benefits and it is classed as a low tax jurisdiction. Its tax and legal systems are in full compliance with the EU and the OECD's requirements, thus resulting in Cyprus being included in the white list of international cooperative jurisdictions.
 - Cyprus actually provides for the lowest corporation tax in the EU with a tax rate of 12,5% (10% up to the year 2012).
 - Under the Cypriot Corporation Tax, inbound dividends are not taxable and there are provisions in place which may even exempt such inbound dividends from being subject to the Special Contribution for Defense Fund (SCDF).
 - Outbound dividends are not subject to any withholding taxes. They are though subject to SCDF if paid to Cyprus tax resident individuals.
 - Cyprus does not impose capital gains tax on the disposal of shares unless it relates to immovable property situated in Cyprus. If the immovable property is located outside of Cyprus, such gains are exempt.
 - Since 2004, Cyprus has become an official member of the EU and has implemented all EU Directives, thus obtaining all the tax benefits granted to intra-community transactions. Cyprus has expanded the applicability of the tax benefits obtained by the EU Directives to all third countries by incorporating the provisions of the EU Directives in its national legislation.
 - EU Directives that have been implemented are the Parent Subsidiary Directive, the Merger Directive, the Tax Savings Directive and the Interest and Royalties Directive.
 - Cyprus law provides for no inheritance tax;
 - Cyprus has concluded an extensive network of Double Tax Treaties (DTTs) for the avoidance of double taxation. Income deriving from countries which signed a relevant treaty with Cyprus will only be taxable once.

CYPRUS: FURTHER TAX BENEFITS

- Irrespective of the tax benefits, it is important to mention that Cyprus is a common law jurisdiction and its Companies' Law is based on the UK Companies Act of 1948.
- During the last few decades it has become known as an international financial center, located at the crossroads of three continents: Europe, Asia and Africa.
- Overall, Cyprus offers a unique European base for international business companies.
- Under the Cyprus Income Tax Law, it is worthy to mention the advantageous treatment of dividends, interest and royalties paid from Cyprus.

Dividends: 0% withholding tax

taxed in the state of residence of the recipient

Interest: 0% withholding tax

taxed in the state of residence of the recipient

Royalties: 0% withholding tax

Royalty payments are exempt from any withholding taxes provided that were exercised outside Cyprus

CYPRUS – CZECH REPUBLIC

- Cyprus and the Czech Republic applied until 2009 the Double Tax Treaty concluded with the Republic of Czechoslovakia which came into force in 1980.
- Both countries have been enjoying business ties over the years.
- In 2008 there were significant joint efforts from both countries in order to extend and encourage further the financial and business relations between them.
- In April 2009, a new treaty has been signed between Cyprus and the Czech Republic mutually agreeing on a new treaty text, terminating in this way the 1980s agreement with Czechoslovakia.
- The new treaty came into force on 1st January 2010 and it is expected to increase business cooperation for both corporations and individuals.

CYPRUS - CZECH REPUBLIC: DOUBLE TAX TREATY

Under the Double Tax Treaty concluded between Cyprus and the Czech Republic it is worthy to mention the advantageous treatment of dividends, interest and royalties paid from Czech Republic.

Dividends: 0/5% withholding tax

0% tax to be withheld at source in case the dividends are distributed to the beneficial owner which is a corporation but not a partnership, and holds directly at least 10% of the shares of the company for an uninterrupted period of at least one year. In any other case besides the above, 5% tax will be withheld.

Interest: 0% withholding tax

interest arising in a contracting state and it is beneficially owned by a resident of the other contracting state it will only be taxable in the contracting state of the beneficial owner.

Royalties: 10% withholding tax

Royalties may be taxed in the contracting state in which royalties arise under the laws of that state unless the beneficial owner is a resident of the other contracting state in which case the tax to be charged shall not exceed 10% of the gross amount of the royalties.

CAPITAL GAINS

(a) gains deriving from the alienation of immovable property situated in the other contracting state may be taxed in the state where the property is situated,

(a) gains deriving from the alienation of shares/rights/interests in a company/trust/partnership deriving more than 50% of their value from immovable property situated in the other contracting state may be taxed in that other state,

(a) gains from the alienation of aircraft and ships which form part of the business property of an international traffic enterprise such gains will only be taxable in the contracting state where the enterprise maintains its effective management.

ELIMINATION OF DOUBLE TAXATION

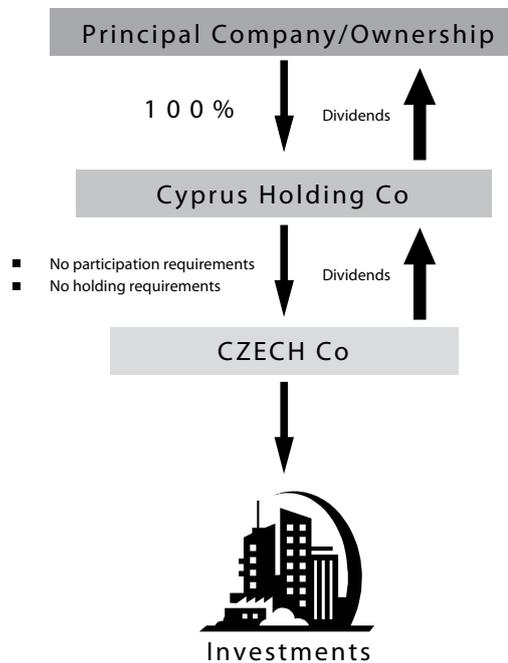

Tax credit provisions are applicable where income received by a resident of a contracting state may be taxable in the other contracting state while the first state allows a deduction from the tax on the income of that resident.

CYPRUS BACK-TO- BACK FINANCING

- **CYPRUS FINANCING COMPANY**
 - > Financing the group companies in two ways:
 - (a) by way of debt or
 - (b) working capital;
 - > Efficient accumulation of interest income.

CYPRUS LEGISLATION

- > Interest income received from intra-group lending bears 12,5% corporation tax;
- > No thin cap rules / no debt-to-equity restrictions;
- > No Transfer Pricing legislation in place, however, the arm's length principle applies;
- > Interest paid to non-resident creditors is not subject to any withholding taxes.

▪ BACK-TO-BACK FINANCING

- > Minimum interest profit margin accepted by the Cyprus tax authorities is as follows:

Less than Eur 50mln	0.35%
Eur 50mln - Eur 200mln	0.25%
Over than Eur 200mln	0.125%

- Cyprus companies are beneficially used as finance investment vehicles suitable for financing group of companies and resulting in an efficient accumulation of interest income.
- In the figure above, a Cyprus company is the subsidiary of a foreign company, and the parent company of a Czech company. A loan from the Parent company can be passed down to the Czech company with respective interest received.
- In Cyprus, interest income received from intra-group lending is liable to 12,5% corporation tax and has no thin capitalisation rules or debt-to-equity restrictions in place. There is also no transfer pricing legislation in place, however, the arm's length principle must be applied– the interest needs to be determined at a market value as if these parties were unrelated. Additionally, interest paid to non-resident creditors is not subject to any withholding taxes.

CYPRUS SHIPPING: NEW TONNAGE TAX SCHEME

- Cyprus has obtained a new tonnage tax scheme since March 2010 and it has been decided to be enforced for the year 2010 (inclusive) and onwards.
- The new tonnage tax scheme has been approved by the European Commission, for the first time for an EU member state with an Open Registry.
- This new Cyprus tonnage tax combines all the favourable provisions of all European and non-European shipping taxation systems.
- Under the new scheme an option for taxation is granted to the companies concerned. They can choose to be taxed on the net tonnage of the vessel or on the actual profits of their maritime transport activities.
- Under the new scheme, the benefits, so far, applicable to ship owners and ship managers of Cyprus flag ships are also extended to the owners and charterers of ships with foreign flags besides Cypriot, provided they are tax residents of Cyprus.
- Qualification requirements need to be fulfilled in order to obtain all the tax benefits granted by the new tonnage tax scheme.

Tax benefits under new tonnage tax scheme

- > No income tax and taxation of profits for the qualified ship owner and charterer
- > No income tax for the qualified ship manager
- > Tax free dividends from profits at all levels
- > Gains deriving from the disposal of or transfer of such vessels or the shares of the ship owning company will be tax exempt
- > The emoluments of officers or of the crew on board of such qualified vessels are exempt from income tax
- > No tax imposed on interest earned (excluding investment capital)
- > Income tax exemption may be granted regarding dividends from qualifying activities

Qualification requirements:

- (a) The vessel must fall under the relevant definition of "qualified ship"
- (b) The person (individual / company) must fall under the relevant definition of "qualified person"
- (c) The activities of the vessel concerned need to comply according to the definition of "qualifying shipping activity".

- Cyprus is an ideal jurisdiction for structuring also international investments in bonds, securities, shares, debentures and other investment instruments.
- A good way of structuring investments through Cyprus is the establishment of an international investment fund in Cyprus. Collective Investment Funds can proceed into investing not only in investment instruments in Czech Republic but almost in every part of the world i.e. India, Latin America, China, Middle East, Central and Eastern Europe, with significant benefits.
- The tax benefits available under the Cypriot jurisdiction and the advantage of the DTTs are also available to the International Funds.
