NOTES

1. An individual who is a Cyprus Tax Resident is subject to both Income Tax and Special Defence Contribution. As from 16 July 2015, an individual who is a tax resident of Cyprus under the provisions of the Income Tax Law but is 'not-domiciled' in the Republic of Cyprus, will be exempt from SDC. An individual is domiciled in the Republic if he has a domicile of origin in the Republic of Cyprus according to the provisions of the Wills and Succession Law (subject to conditions) or if he has been a Cyprus tax resident for a period of at least 17 out of the last 20 years before the relevant tax year.

2. Dividends received by a Cyprus tax resident company from other Cyprus tax resident companies are excluded from defense tax, unless dividends are indirectly declared after the lapse of four years from the end of the year in which the profits were generated. In such case 17% (20% in 2013) defense tax will be imposed if the ultimate beneficial owners is a Cypriot tax resident. Any dividends derived directly or indirectly from such dividends on which Special Defense Contribution has already been paid are exempt from Special Defense Contribution.

3. Dividend income from abroad is exempted from defense contribution provided that:

- more than 50% of the income of the company paying the dividends derives directly or indirectly from trading activities, or

02 SPECIAL CONTRIBUTION FOR DEFENCE FUND

- the tax paid by the foreign subsidiary is not significantly lower than that of Cyprus (Effective tax not lower than 6.25%).

When the exemption does not apply, the dividend income is subject to defense contribution at the rate of 17%.

4. Interest income deriving from Cyprus Government Bonds, Development bonds or interest earned by an approved provident fund is subject to a 3%. For individuals, whose annual income (including interest), does not exceed the amount of €12,000 the rate is reduced to 3%.

5. For rental income where the tenants are Cypriot companies, partnerships, the Government and Local Authorities, they have an obligation to withhold Special contribution for defense from the rental payments and to pay the tax by the end of the month following the month in which it was withheld. In all other cases the Special contribution for defense on rental income is payable by the landlord in 6 month intervals on 30 June and 31 December each year.

6. The Special contribution for defence on interest and dividend paid to Cyprus tax residents is withheld at source and is payable at the end of the month following the month in which the income was paid. For interest, dividend and rental income received from abroad the Special contribution for defense is payable in 6 month intervals on 30 June and 31 December each year.

DEEMED DIVIDEND DISTRIBUTION

If a Cyprus resident Company does not distribute dividend within two years from the end of the tax year then:

- 70% of accounting profits (as adjusted for Special contribution for defense purposes) are deemed to have been distributed as a dividend.
- 17% special contribution for defence is imposed on deemed dividend distribution applicable to shareholders (both individuals and companies) who are both tax residents of Cyprus and domiciled in Cyprus. Before the amendment of the Law on 16 July 2015 this provision was applicable for Cyprus Tax residents only.
- Deemed distribution is reduced with payments of actual dividends which have already been paid during the two years from the profits of the relevant year.

When an actual dividend is paid after the deemed dividend distribution, then defence tax is imposed only on the additional dividend paid.

The profits of a Cyprus Tax resident Company which are attributable either directly or indirectly to shareholders who are not Cyprus tax residents will not be subject to deemed dividend distribution.

Furthermore, in case where such non-Cyprus tax resident shareholders constitute 100% of the ultimate shareholders of the company, the company is not required to submit a deemed dividend distribution return.

Instead, the company's directors and auditors are required to submit declarations confirming that 100% of the shareholders of the company are directly and/or indirectly non-Cyprus tax residents.

02 SPECIAL CONTRIBUTION FOR DEFENCE FUND

DISSOLUTION OF COMPANIES

The total profits of the last five years prior to the dissolution not yet distributed as dividends are deemed to be distributed in the dissolution and will be subject to Special Defence Contribution at the rate 17% applicable to shareholders. The declaration of deemed distribution and the payment of the relevant Special Contribution to Defense Fund must be made within 30 days from the date of the resolution for liquidation.

These provisions do not apply in the case of dissolution under reorganization, in accordance with certain pre-requisites set out in regulations and where the shareholders are non-residents in the Republic or residents but not domiciled in the Republic.

REDUCTION OF CAPITAL

In the case of a reduction of capital of a company, any amounts due or paid to the shareholders in excess of the paid up share capital will be considered as dividends distributed subject to special defense contribution at the rate of 17% after deducting any amounts which have been deemed as distributable profits.

These provisions were applied where the shareholders are tax residents in the Republic. As from 16 July 2015 these provisions apply only where the shareholders are both tax residents and domiciled in the Republic.

TAX CREDIT FOR FOREIGN TAX PAID

Any tax suffered abroad on income, which is subject to special defence contribution, will be credited against any defence contribution payable on such income irrespective of the existence of a Double Tax Treaty.

VALUE ADDED TAX

06

VALUE ADDED TAX

Value Added Tax is imposed on the supply of all goods and services in Cyprus, on the importation of goods from third countries and on the acquisition of goods from other EU member states.

Taxable persons charge VAT on their taxable supplies (output tax) and have the right to claim VAT suffered on goods and services, which they receive (input tax) for the purpose of their business.

If output tax in a VAT period exceeds total input tax, a payment has to be made to the state. If input tax exceeds output tax, the excess amount is carried forward and can be claimed against any future output VAT.

Refund of any excess VAT can be claimed from the state in the following cases:

- A period of eight months has elapsed since the date the VAT became refundable.
- Input VAT which cannot be set off against output VAT until the last VAT period of the year which follows the year in which the VAT period in which the credit was created falls;
- The input VAT relates to zero rated supplies;
- The input VAT relates to the acquisition of capital assets;
- The input VAT relates to transactions which are outside the scope of VAT but would have been subject to VAT had they been carried out within Cyprus;
- The input VAT relates to exempt financial and insurance services provided to non EU resident clients (services for which the right to recover the related input VAT is granted).

For intra-community acquisition of goods (with the exception of goods subject to excise duty) the trader does not pay VAT on receipt of the goods in Cyprus, but instead accounts for VAT using the Reverse Charge Principle; that is to account for both input and output VAT, provided it relates to supplies for which the right to recover input VAT is granted.

In cases where the right to recover the input VAT is not granted, the trader must pay the input VAT accordingly.

06

VALUE ADDED TAX

The following VAT rates apply to the taxable supplies:

- Zero rated (0%);
- Reduced rate (5%)
- Reduced rate (9% as from 13 January 2014)
- Standard rate (19% as from 13 January 2014)

EXEMPTIONS

Certain goods or services are exempted from VAT including:

- Letting of immovable property;
- Most medical, hospital and dental services;
- Most banking, insurance and financial services;
- Educational services under certain conditions;
- Supply of land and second hand buildings;
- Supply of immovable property for which a valid application for planning permission was submitted before 1st of May 2004.
- Management services provided to mutual funds;

Difference between zero rated and exempt supplies

Zero rate is a taxable rate and an obligation for registration is compulsory once the criteria are met and are entitled to recover VAT charged on purchases, expenses and imports, whilst businesses engaged in exempt activities are not eligible to recover VAT paid and/or suffered on those expenses.

Irrecoverable input VAT

Input VAT cannot be recovered in a number of cases, which include the following:

- When businesses make only exempt supplies;
- Purchase, import or hire of saloon cars;
- Expenditure for entertainment of persons other than staff;
- Housing expenses of directors.

Registration

A person/company is obliged to register for VAT when:

- At the end of any month, if the value of the taxable supplies (supplies taxed at zero and/ or reduced and/or standard rates) exceed €15,600 during the 12 preceding months.
- At any point in time, if there are reasonable grounds for believing that the value of the taxable supplies in the following 30 days then beginning will exceed €15,600
- Receives services from abroad (EU and non EU establishments) the value of which exceed € 15,600 during the 12 preceding months.

06

VALUE ADDED TAX

- Provides services to businesses established in EU member States. No registration threshold in place.
- Purchases goods from businesses established in EU member States (Intra-Community acquisitions) the value of which exceeds €10,251.61
- Offers zero rated supplies for goods or services.
- Acquires a company on a going concern basis.
- A taxable person from abroad makes distance sales with registration threshold of €35,000.

Business with turnover of less than €15,600 or with supplies that are outside the scope of VAT but for which the right to claim input VAT is granted, have the option to voluntarily register.

VAT declaration, payment/refund

VAT returns are submitted quarterly within 40 days from the end of each quarter. The payment due to the authorities must be made prior submitting the return. Where in a quarter input tax is higher than output, the difference is either refundable or is transferred to the next VAT quarter to be credited against any payable amount.

As from 19 February 2013 claims for VAT refund will be entitled to repayment of the VAT amount with interest, where the repayment is delayed for a period in excess of 4 months from the date of submitting the claim. The period of repayment is extended for another 4 months in the cases where the Commissioner is carrying an investigation regarding the claim.

International Business Companies (IBCs)

IBCs are subject to the same registration rules as companies involved in taxable activities locally. However the activities of most IBCs fall outside the scope of VAT thus there is no obligation for registration. IBC's have the option of voluntary registration; this enables them to be refunded VAT paid on Cypriot expenses.

a) Intra-community trade

This refers to supply of goods between EU Member States and their VAT treatment. The sale is taxed at zero rate if the following criteria are satisfied:

- The seller has adequate proof that the goods have left the State.
- The goods have been transferred to another Member State.
- The buyer is an EU VAT registered person and the VAT number of the buyer is recorded on the invoice.
- The goods sold are not goods for which the seller is taxed under the provisions of the margin scheme.
- The seller maintains adequate evidence that the goods have been transferred to that Member State.

With regard to intra-community acquisitions the trader does not pay VAT on the receipt of the goods in Cyprus but instead accounts for VAT using acquisition accounting. This involves a simple accounting entry in the books of the business whereby he self-charges VAT and at the same time claims it back if it is related to taxable supplies thereby creating no cost to the business (reverse charge rule), provided that the acquisition relates to supplies for which the right to recover input VAT is granted.

06 VALUE ADDED TAX

b) Triangular trade

This is the case where three Member States are involved and there is only one actual movement of goods but two invoices are issued, one from the first country to the intermediary and another from the intermediary to the recipient of goods.

The intermediary supplier must apply the simplification procedures and the invoice issued to the recipient must include the phrase “VAT, EU Article 28, Simplified Invoice”.

c) Provision of services

I. General Rule / Place of supply of services

The main rule states that services are taxable in the country where the recipient of the service is established.

SUPPLIER	CLIENT	TREATMENT
Cyprus VAT registered Company	Cyprus VAT registered Company	Cyprus VAT charge
Cyprus VAT registered Company	Non EU Company	No VAT charge
Cyprus VAT registered Company	EU VAT registered Company	VAT in the country of the recipient (EU) (reverse charge rule applies)
Cyprus VAT registered Company	EU Non VAT registered Company	Cypriot VAT charge
EU VAT registered Company and Non EU Company	Cyprus VAT registered Company	Self account for VAT using the reverse charge mechanism. If the Cyprus company is a partially business person, VAT input is restricted only to taxable activities.

As from January 2013 the long term hiring of means of transport to consumers (individuals and business not registered for VAT) is taxable where the customer usually resides.

In regards to the hiring of pleasure boats the place of supply is where the pleasure boat is actually put on the disposal of the customer as long as the service is provided from the place where the supplier has established his business.
